FEDERAL ENERGY
REGULATORY COMMISSION

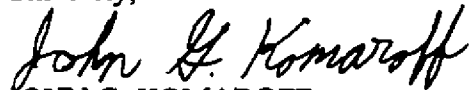

Dear Madam,

It is my position that the Long Island Sound does not need a costly, risky, LNG barge. I feel that Broadwater is too costly, risky and is not needed in the Sound. Also, the constant armed private security would disrupt the peaceful tranquil waters of the Sound and the Sound would be ruined by using these private armed security forces surrounding the barge. Additionally, this facility limits public access to the Sound and sets a dangerous precedent of industrializing the Sound.

I would appreciate a written response, informing me of your position on this matter.

Thank you,

Sincerely,

JOHN G. KOMAROFF
